Tuesday 29 September	Carillon Historical Park This park is dedicated to the history of Dayton. There are many exhibits of interest particularly if you are interested in invention and industry. Dayton inventions include everything from the step ladder, to the automotive self-starter, to the airplane, to the pop top can, and so much more. Perhaps the most interesting part of this park is the Wright Brothers National Museum. On display is the 1905 Wright Flyer III. The only airplane designated a National Landmark and the first practical flying machine. Another point of interest is one of the only remaining artifacts from one of the most secret projects of WWII, the NCR Bombe. The Navy WAVEs who assembled the Bombs were billeted in cabins at NCR's Sugar Camp. The only remaining cabin is on display. Meet and greet and gatherings of attendees in common area adjacent to hotel lobby, bar and outside pool continues.
